Harvest was first premiered in 1997 and has since been celebrated for its incisive critique of the global food industry and corporate exploitation. Padmanabhan, renowned for her sharp wit and social consciousness, constructs a dystopian scenario that is both a warning and a mirror to contemporary society. The play's central premise revolves around the commodification of human bodies and the ethical dilemmas surrounding biotechnology and genetic engineering.

## Synopsis of Harvest

### Setting and Context

The play is set in a near-future world where multinational corporations have taken over food

production, transforming agriculture into a highly mechanized, corporate-controlled enterprise. In this world, the line between humans and commodities blurs, raising questions about identity, autonomy, and morality.

## Main Plot

The story follows a young woman named Aruna, who works as a laborer in a corporate farm. Her job involves harvesting genetically modified crops, which are engineered to grow faster and yield higher profits. However, the process is grueling and dehumanizing, reflecting the exploitation faced by workers in the global food industry.

A pivotal element of the plot unfolds when the corporation introduces a new initiative: bio-harvesting. In this scheme, human bodies are used as living harvesters?people are genetically modified to produce specific resources, such as organs or tissues, which can be harvested periodically without their consent. This practice is justified by the corporation as a revolutionary step to address shortages of vital organs and resources.

Aruna, who is already struggling with her health and economic hardship, becomes entangled in the corporation?s plans. Her dilemma intensifies when she discovers she is a candidate for bio-harvesting herself. The play follows her moral struggle, the exploitation by the corporate entities, and the societal apathy that enables such practices.

## Climax and Resolution
